CARSONITE®

A **valmont**  BRAND

Marking and Safety Products for Parks and Recreational Applications

Who we are

With more than 30 years of experience serving highway, utility, and federal recreation markets, Carsonite has developed distinctive products and applications geared to each market. Our posts offer the maximum in durability and flexibility to address vehicle impacts and a variety of soil conditions. Carsonite posts are engineered to enhance visibility, simplify installation, withstand the elements and increase safety.

Our markers and delineators are the industry standard. Many of the marking products in wide use today are based on Carsonite patents. Our trademarked profiles remain the standard by which all other markers are measured, and Carsonite's easily identifiable products are manufactured and assembled in the United States.

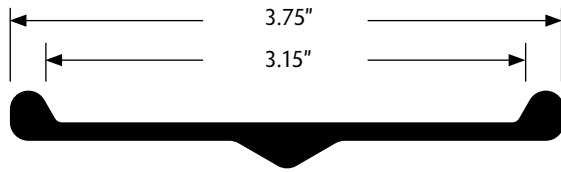

Carsonite is committed to excellence. Our name appears on all of our products, and we are dedicated to customer service. Our sales representatives and a vast distribution network stand ready to serve you with quality products and timely delivery.

Withstands highway-speed vehicle impacts

The three-rail design of the Carsonite RoadMarker provides both flexibility and structural integrity. Two ribs on the side protect sheeting from vehicle impacts, while the back rib gives added strength for driving into hard soil.

Carsonite High Performance RoadMarkers are designed to stand up to nature as well as vehicular impacts, controlled ditch burns, and even small arms gunfire.

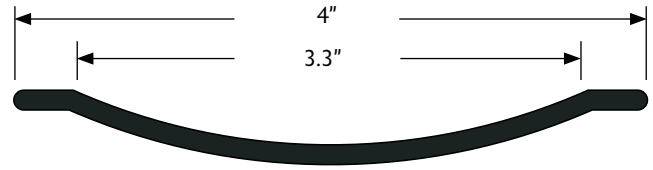

Curv-Flex™ Marker

CFR

Drivable, flexible, impact resistant marker

Our most flexible fiberglass composite marker. The Curv-Flex is recommended for areas where vehicle impacts are likely. With its trademarked curve and flange profile, the Curv-Flex marker withstands direct tire impacts. In dense soil conditions, the Curv-Flex may require a small pilot hole before installation.

Durable, attractive two-sided marker

This durable fiberglass composite Carsonite Dual Sided Marker accepts sheeting or decals on both sides. It is ideal for 180-degree messages—for rural route marking or for 9-1-1 identification. The marker rebounds after impacts, and resists vandalism. The raised, reinforced ribs along each side help prevent scratching or removal of the legends if impacted.

Durable, and easy installation

The Carsonite Support Post (CSP) is a U-channel shaped sign posts meeting the dimensions of a standard 3 lb U-channel. This post is intended for use as an object marker and a sign posts in applications requiring long-term outdoor durability, vandal resistance, and easy installation.

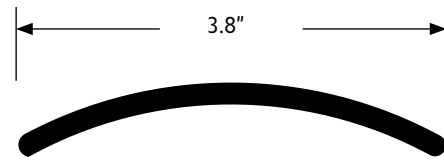

GreenLine™ Single-Curve Marker

CGD

Highly flexible and available in bright colors

The GreenLine Single-Curve Marker is a highly flexible post featuring a simple, curved design that will take direct tire impacts at highway speeds. Available in bright colors, this attractive marker is ideal for 9-1-1 and yard marker applications. Decals or reflective sheeting can be applied to both sides. For hard soils, a convenient metal U-channel anchor may be added.

Campsite Marker

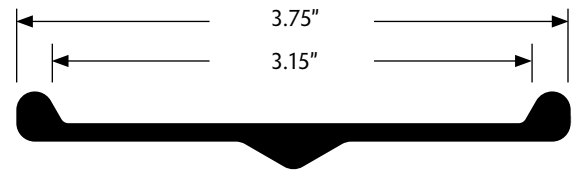

CCSM

Low-cost, dual-sided for campsites, picnic areas, etc.

For high visibility and easy identification, the Carsonite Campsite Marker is the perfect choice. This three-rail design combines structural integrity with above-ground flexibility, as well as protection for decals.

The marker is also highly resistant to vandalism. Anchors (sold separately) make it virtually impossible to remove the markers without proper equipment.

The reflective site identification decal is included. Custom decals are available, and can be applied to the metal slider—up to 6" long. Add your logo, name or any message. Carsonite will apply decals at our factory to save you time and money.

Federal Recreation Signing (Universal Symbols)

Stock or Custom Made

Carsonite offers a complete line of outdoor quality signs and decals featuring universally recognized federal symbols for recreation. These signs and decals can be combined with a Carsonite marker to create a highly cost-effective, low-maintenance signing system. All signs and decals can be customized for your needs.

3" x 3" recreational symbols are available in 8½" x 11" pages containing six symbols and three directional arrows. All recreational symbols are printed with a white engineering-grade reflective background with brown copy. Custom colors are available. Add a red slash to any recreational symbol to prohibit the activity.

Recreational symbols can also be ordered as 8" x 8" or 12" x 12" signs. See illustration below.

Road Closure Signs and Kits

These durable, highly visible, composite signs attach to gates, fencing, or posts to easily close roads, temporarily or permanently. Posts sold separately. Add Hazard Marker Signs, Object Markers, and Reflective Sheeting around the area as needed for safety.

Road Closure Kits

Our Standard Road Closure Kit offers a choice of two styles of larger, 15"x30" "Road Closed" signs: with or without a message area that accommodates an explanation decal. The LowVolume Road Closure Kit features a smaller, 10"x20" "Road Closed" sign with a message area. For both, our standard message inserts are listed on Page 28. Custom decals are also available.

Decals, Letters and Numbers

Carsonite's graphics department manufactures decals to order using a highly specialized, state of the art process that results in tough, UV-resistant decals that stand up to harsh outdoor environments. Our decals start with top quality vinyl or reflective pressure sensitive material. We then use outdoor quality, UV-resistant materials and pigments to put your message on the decal. The process is completed by embedding the graphics under a protective laminate called UV Shield™, which provides resistance to weather, graffiti, vandalism, and fading.

Carsonite offers complete production services to make your message clear, visible, and customized to your needs. Our processes yield unsurpassed weatherability, durability and UV resistance. We are the experts in visibility!

We use state-of-the-art equipment throughout the process to ensure a quality job that meets your specifications and imposes as few limitations as possible to your creativity. Your corporate, park, DOT, or other logos can be faithfully reproduced.

LETTERS AND NUMERALS

These outdoor-quality, ready-made alphabets and numeral sets meet the Federal Highway Administration's specifications. You can apply them to identify equipment, to enumerate sites, and to specify mileage, route numbers, dates and times on signs and decals. Available non-reflective or reflective in 1" to 4" height, any color and any character, including accented characters.

Available products:

- Individual Decals: stock or custom
- Die-Cut Decal sheets: 8½"x11" sheets containing 1", 2", 3" or 4" numerals or letters.
- Die-Cut Decal sheets, 8½"x11" sheets containing 2" or 4" arrows
- Die-Cut Decal sheets, 8½"x11" sheets containing 1", 3/8", 1/2" or 5/16" decimals
- Travel Management System Components for easy-to-assemble specialized decals
- Kits of Letters and Numerals

Decals, Letters and Numbers

Die-Cut Numerals & Alphabets

Available in a variety of colors to suit any need, Carsonite's die-cut numerals and alphabets come in convenient sheets suitable for storage in standard three-hole binders. They are available in reflective or non-reflective self-adhesive material, and in sheets of 1", 2", 3" or 4" letters or numerals.

Reflective or non-reflective letters and numerals are also supplied in white or any color on a solid color background (specify colors). The sizes are 1", 2", 3" and 4".

Symbols per sheet:

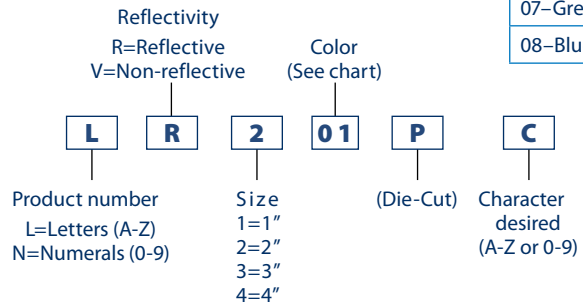

- 1" solid or 1" die-cut: 70
- 2" solid or 2" die-cut: 28
- 3" solid or 3" die-cut: 6
- 4" solid or 4" die-cut: 5

Other sizes and designs, decimal points and arrows, as well as kits of letters and numerals are also available. Custom symbols and logos can also be accommodated. Contact your representative.

Carsonite Original Post

Highly flexible post for youth events or areas where a forgiving barrier is needed.

Carsonite FlexRod® Post

Semi-flexible post for adult events, crowd control and work zones.

Carsonite Hi-Impact Post

Offers 360-degree flexibility for both youth and adult events. Requires a Magnetic Locking Ground Sleeve for installation.

Ground Sleeves for FlexRod Posts remain in the ground and allow easy insertion and removal of fence posts. Ideal for applications where the fence will be taken down and put back up frequently.

Magnetic Locking Ground Sleeve

For use with FlexRod® and Hi-Impact Posts.

Special Locking Pin locks into the Magnetic Locking Ground Sleeve to reduce vandalism and tampering.

Rectangular Ground Sleeve

For use with Carsonite's Original Post. A cap excludes dirt and moisture when the sleeve is not in use.

ILLUSTRATIONS ARE NOT TO SCALE

Carsonite AcoustaShield™ Sound Barriers

How to Order:

Contact your representative or visit www.carsonite.com to request more information and an AcoustaShield information packet.

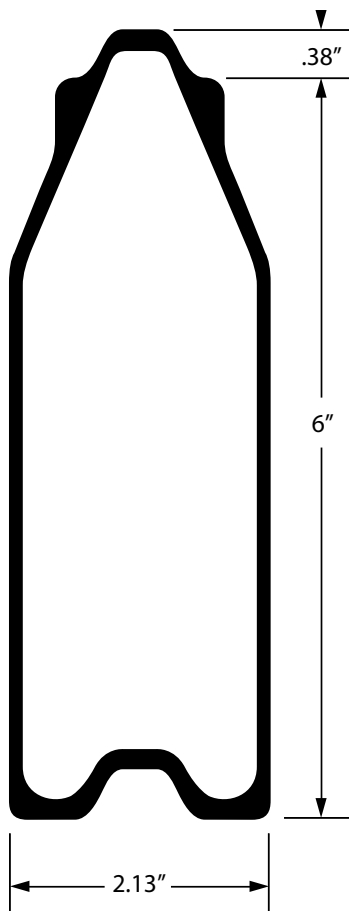

- ▶ Meets AASHTO and DOT sound wall guidelines
- ▶ Low maintenance over life of product
- ▶ Wide variety of colors available
- ▶ Spans up to 18 feet
- ▶ Graffiti resistant
- ▶ Lightweight, easily installed with minimal equipment
- ▶ Non-conductive fiberglass supports and panels

Effective against noise and light pollution

Carsonite's AcoustaShield Sound Barrier provides noise abatement along transportation corridors, as well as other applications requiring long-term outdoor durability, vandal resistance and ease of construction.

Easily customized, the system lets you design your sound barrier to fit your specific needs. Choose from unfilled, recycled-rubber filled, or absorptive options. These lightweight panels can be installed by a small crew without the use of heavy lifting equipment. The flame retardant panels can be easily cut in the field if on-site adjustments are needed. For applications under 15' in height, inquire about our fiberglass uprights.

Material: Fiberglass composite

Acoustical Ratings			
	AcoustShield Absorptive	AcoustaShield Filled	AcoustaShield Unfilled
STC Rating	28	37	28
NRC Value	.95	.15	.20

At only 5 to 7 pounds per square foot, AcoustaShield does not add unnecessary weight to bridge structures.

For all soils and applications

Carsonite's Standard Post Driver (PDR1) is used to install RoadMarker,® Tuff-Flex™, Curv-Flex™, Dual-Sided Marker and GreenLine™ Single Curve Marker. 48" in length, this driver is for posts from 5 to 6 feet long.

Carsonite's Long Post Driver (PDL1) is used to install RoadMarker, Tuff-Flex, Curv-Flex, Dual-Sided Marker and GreenLine Single Curve Marker. At 56" in length, it is for posts over 6' long.

Carsonite's Short Post Driver (D400S) is used to install RoadMarker, Tuff-Flex, Curv-Flex, Dual-Sided Marker and GreenLine Single Curve Marker. At 24" in length, this driver is for posts under 5' long.

The FlexGuard Socket Driver (RMTLDSMD10) is for installing FlexGuard post sockets.

The Guide Tube (RMTLPGT1) gives an added assist in keeping posts vertical during installation. Also useful in preventing posts from flexing when installing into hard or rocky soil. The Guide Tube is useful with RMTLPDR1 or RMTLPDL1 drivers.

Boundary Marker Driver (RMTLD250). This accessory is intended for use with the Boundary Marker (CBM).

The U-Channel Driver (RMTLSDSD300) is intended for installing Carsonite's Curv-Flex or other Carsonite markers that utilize the U-Channel option.

The Pilot Hole Driver (RMTLDP100) is for use in hard or rocky soil when driving posts can be exceedingly difficult. The driver's spaded head leaves a hole to assist in driving the post. For use with all Carsonite markers.

Carsonite's Post Puller (RMTLCP) is used to remove posts that may need replacing. Use the Post Puller with any of our flat markers.

Other specialized tools are also available. Contact your representative.

ANCHOR BARBS

Protection from theft

Anchor barbs are intended to prevent the post from being pushed out of the ground during freeze/thaw cycles, as well as from attempts to pull them out by would-be vandals. Anchor barbs are available in polycarbonate. Purchase in packs of 10 or have them factory installed when ordering posts.
